

RUBBER DAM

Rubber Dam

One of the most important steps in dentistry and a fundamental practice in endodontics is absolute isolation.

The Easy Bassi Rubber Dam is recommended for all specialties, particularly in operative dentistry and endodontics.

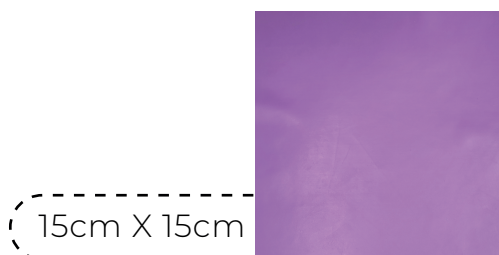

Product Information

PRODUCT IDENTIFICATION

The Easy Bassi Rubber Dam latex not only provides an effective seal but also remains intact and does not degrade when exposed to chemical substances such as NaOCl (sodium hypochlorite).

This rubber dam has a medium thickness and offers high mechanical resistance.

Presentation

- The Easy Bassi Rubber Dams come in boxes of 36 units.
- Medium thickness for optimal performance.
- Available in 15x15 cm and 12x12 cm sizes.
- Unscented, non-sterile, and available in blue, black, purple, green, and pink.
